Special Provisions

1. Contract Period:

Date of Award through August 31, 2020 or until orders are no longer accepted by the manufacturer.

2. Contract Renewal:

The contract may be renewed for additional model years by mutual consent of both parties under the same terms and conditions.

3. Open-Ended Contract:

This is an open-ended contract between a vendor and the State to furnish an undetermined quantity of a good or service in a given period of time.

4. Prices:

Prices shall remain firm for the entire contract period and subsequent renewals. Prices shall be net delivered, including all trade, quantity and cash discounts. Any price reductions available during the contract period shall be offered to the State of Kansas. Failure to provide available price reductions may result in termination of the contract for cause.

Contract Price:

Statewide contracts are awarded by Procurement and Contracts to take advantage of volume discount pricing for goods and services that have a recurring demand from one or more agencies. However, if a state agency locates a vendor that can provide the identical item at a lower price, a waiver to "buy off state contract" may be granted by Procurement and Contracts.

5. Administrative Fee:

Vendor(s) must pay a 1/2% Administrative Fee on all purchases (including political subdivisions) made against this contract. The fee is to be included in the cost (bid price) of the goods or services. The Administrative Fee is to be based upon the total dollars invoiced under the contract. The Administrative Fee shall be made in check form, payable to the "State of Kansas - Division of Purchases" and must be paid within 30 days following the end of each quarter.

6. Quarterly Reports:

The contractor is required to submit a quarterly report to the Division of Purchases detailing all acquisitions made by the State from this contract. This report should include as a minimum the agency name, quantity, description and amount group number (even if the amount is zero).

The Contractor shall be required to file a quarterly report by each state agency or political subdivision making purchases under this contract. Reports are due no later than 30 days after the end of each calendar quarter and shall correlate with figures submitted as Administrative Fees (see below). Above referenced reports are to be filed with Procurement and Contracts Open Records Officer or his/her designee located at 900 SW Jackson, Room 652S, Topeka, KS 66612-1212. Reports may also be required to be submitted to the specific using agency.

Electronic files shall be e-mailed to the following e-mail address: reports@ks.gov, in Microsoft® Excel or Microsoft® Access Database format.

The required reporting format may be found on the Procurement and Contracts website at <http://da.ks.gov/purch>, under the "Forms" link.

Report Types

Reports shall be available reflecting the following information. Agencies and Procurement and Contracts reserve the right to request additional information.

Sales Summary

Report shall include a list of agencies and political subdivisions who have used the contract, a subtotal of sales to each agency or political subdivision, as well as a grand total of all sales.

Items Sold

Report shall include a list of items sold to agencies and political subdivisions, indicating the contract price and using agency, a subtotal of sales to each agency or political subdivision, as well as a grand total of all sales.

Items Sold, by Agency

Same as above, except sorted by agency.

7. Orders:

Orders will be placed periodically throughout the contract period by State Agencies. Agency orders will show options required, colors, title information delivery hours and the name of a contact person and telephone number. The State realizes that the manufacturer may discontinue accepting order prior to the contract termination date. Contractors shall inform the Division of Purchases of early order cutoff dates.

8. Invoices:

Each purchase order must be individually invoiced. Invoices shall be forwarded to the using agency in duplicate and shall state the following:

- a) date of invoice;
- b) date of shipment (or completion of work);
- c) purchase order number and contract number;
- d) itemization of all applicable charges; and
- e) net amount due.

9. Payment Terms:

Payment Terms are Net 30 days. Payment date and receipt of order date shall be based upon K.S.A. 75-6403(b). This Statute requires state agencies to pay the full amount due for goods or services on or before the 30th calendar day after the date the agency receives such goods or services or the bill for the goods and services, whichever is later, unless other provisions for payment are agreed to in writing by the vendor and the state agency. NOTE: If the 30th calendar day noted above falls on a Saturday, Sunday, or legal holiday, the following workday will become the required payment date.

The statute further defines the date goods or services are received as the date such goods or services are completely delivered and finally accepted by the state agency. The date the payment is made by the state agency is defined as the date on which the warrant or check for such payment is dated, i.e. warrant issue date.

10. Deliveries:

Normal orders shall be shipped FOB destination, prepaid and included, within 90 (Ninety) days of receipt of a purchase order unless special options are specified. Deliveries must be clearly marked with the purchase order number. If delays in delivery are anticipated, the Contractor shall notify the ordering agency of the expected delivery date or partial delivery date. The order may be cancelled if delivery time is unsatisfactory. The Contractor shall inform the Division of Purchases of any supply or delivery problems.

Vehicles delivered shall have mileage readings not to exceed 50 miles plus the mileage distance from the contractor's shipping point to the delivery location and in no case shall the odometer reading exceed 500 miles. The contractor shall notify the agency 48 hours prior to delivering the vehicle and shall comply with the Agency's delivery hours.

Contractors shall guarantee delivery of vehicles ordered prior to March 1, each model year unless noted. After March 1, Agencies shall contact vendor prior to placing orders to insure availability. If the Contractor receives an order and cannot guarantee delivery, the Contractor will immediately notify the ordering Agency in writing with a copy to the Procurement Officer.

Contractors have quoted one firm price per mile for delivery of each category of vehicle no matter the distance from the shipping point (defined as location of Pre-delivery Inspection) to the delivery point. Alternative pricing may be shown for delivery of multiple vehicles. All shipping points in the Kansas City, Missouri Metro Area shall use Kansas City as the basis for figuring mileage. The attached mileage chart will be used to determine delivery charges if delivery is made to a city not shown on the Price Schedule based upon the contractor's unit price per mile. No "Delivery Charge" will be assessed if the vehicles are drop shipped to the delivery location and the State Agency performs the predelivery inspection.

Contractors will not charge mileage for delivery to destinations within the City where the shipping point is located. Delivery of vehicles to destinations located outside the boundaries of the specified City which result in a total delivery distance which exceeds the distance to any destination within the City boundaries will be allowed to assess the appropriate per mile charge for the difference in the two distances.

The contractor agrees, to guarantee the design, material and workmanship of the unit bid according to the standard factory warranty, or for one year, whichever is greater. Warranty coverage shall include costs of transporting the unit to and from factory authorized service center, when outside a 150-mile radius of the delivery point.

11. Delayed Warranty Start Date:

When state agencies purchase a quantity of vehicles that are placed into storage, a delayed warranty start date shall be available, that reflects the actual date when that vehicle is first placed into service. This date shall not exceed 12 months from the invoice date.

12. E-85 Engine:

An E-85 compatible engine shall be capable of operating on E-85 (85% ethanol and 15% unleaded gasoline, unleaded gasoline or any mixture of the two in the same tank.

When hybrid powered vehicles are specified, for the purpose of this contract, a hybrid powered vehicle shall be defined as having both a gasoline engine and rechargeable electric batteries to power electric motors. These vehicles are commonly referred to as a hybrid-Electric vehicle (HEV). The base vehicle specifications for engine size, fuel capacity and trunk capacity are waived when a hybrid vehicle is required. The ninety (90) day delivery requirement is also waived and delivery will be subject to availability.

13. Miscellaneous Requirements (All Vehicles):

License Tag Brackets and Bolts:

Each vehicle will be equipped with adequate license tag brackets to protect license tag. Sufficient bolts and fasteners shall be furnished to properly apply license tags on the back of vehicle.

Keys:

Two complete sets of keys are to be furnished on substantial key rings. Operability of all keys must be verified by dealer prior to delivery.

Key Codes:

A printed record of key codes and corresponding manufacturer's identification numbers shall be furnished for each vehicle or vehicles listed on an invoice.

Service:

Each vehicle shall be serviced (prior to delivery) including all fluids to be at proper level. All doors, hatch cover (or trunk cover) and hood shall be properly adjusted. All fittings and attachments shall be accounted for. All mechanical adjustments (throttle linkage, headlights, front end) shall have been made. There shall be at least 1/4 tank of gas shown on the gas gauge at the time of delivery. Engine shall be protected with ethylene glycol antifreeze to 20 degrees below zero. Windshield Washers shall be full of winter strength solution to prevent freezing. Vehicle to be clean both interior and exterior.

Each vehicle delivered shall have a separate vehicle packet containing: 2 sets of operable keys; (NOTE: Contractor is to verify all keys are operable prior to delivery, payment may be delayed if any keys provided are inoperable) certificate of origin specifying the specific state agency as new owner; odometer statement; operator's manual; warranty standards; tire warranty. This packet must accompany each vehicle as it is delivered.

Floor Mats, when specified, shall be located in all passenger locations, may be dealer installed and shall be color coordinated with interior color unless otherwise noted.

Vehicles to be available in a sufficient variety of colors. Vendors will be required to provide a color card to each agency upon request.

When an automatic transmission is specified, a continuous variable transmission will be acceptable.

Full size spare tires, when required, to be same brand, size and tread design as other tires. "Temporary USE" spare tires will not be acceptable as full-size spare tires.

Vehicles to comply with all Federal and State safety regulations.

Running Boards if ordered on Vans are to be adjusted so they provide a practical stepping surface. Running Boards delivered which are adjusted so far under the Van that they are not functional will be rejected.

Contractors will provide any options not specified at Invoice cost or less as shown in the Price Schedule. Agencies will request these options from the State Procurement Officer. The Procurement Officer will then obtain pricing from the Contractor based upon written verification and inform the Agency of the cost.

Attached are specifications for the base vehicles.

The State of Kansas reserves the right to purchase vehicles from other than the Contractor if, as the result of a legal settlement, the State of Kansas becomes entitled to benefits which will allow for the purchase of vehicles at prices lower than quoted on this contract.

Contractors shall report to the manufacturer the State Agency and Address shown on the purchase order is the proper address to use when mailing service recalls, warranty information or any other related correspondence. Do not show the Division of Purchases as the owner of the vehicle.

Base Vehicle Specifications for All Vehicles

Engine:	Standard engine.
